

REGISTRATION FEES:

| | |
|-----------------------------|-------|
| CST Workshop (Aug. 8 and 9) | |
| standard | 450 € |
| student | 100 € |
| CST member | 405 € |

If you want to attend also the Nordic Filtration Symposium the registration fees are as follows:

| | |
|---|-------|
| CST Workshop (Aug. 8 and 9) + Nordic Filtration (Aug. 10) | |
| standard | 600 € |
| student | 200 € |
| CST member | 540 € |

| | |
|-----------------------------|---------------|
| Nordic Filtration (Aug. 10) | |
| standard | 250 € |
| student | 100 € |
| CST member | 225 € |
| NoFS member | 25 € Discount |

| | |
|---|-------|
| CST Workshop (Aug. 9) + Nordic Filtration (Aug. 10) | |
| standard | 500 € |
| CST member | 450 € |

The fees include lecture material, lunches and coffees, and social programme (Dinner at Casino, cruise on Lake Saimaa and Garden Party at Larox). VAT (22%) is included in the given prices. Fill in the registration form on web site: www2.lut.fi/cst/NFS2005. Registration before June 30.

PAYMENT OF THE REGISTRATION FEE: Before July 31, 2005. Please use the invoice form that you will receive after registration. Cancellation fee -25%.

ACCOMMODATION: Rooms have been reserved at

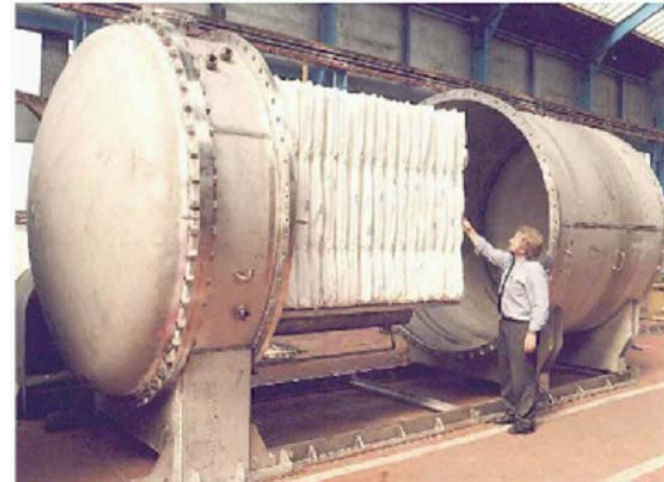

| | Rate |
|----------------------|-------------------------------|

9th Nordic Filtration Symposium

August 9-10, 2005

Student Union Building
Lappeenranta University of Technology
Lappeenranta, Finland

following
the CST Workshop,
Lappeenranta August 8-9, 2005

Programme

Tuesday, August 9, 2005

Evening programme: Garden Party at LAROX

Wednesday, August 10, 2005

8.30 Registration and coffee
9.00 Opening of the Symposium (Lars Nyström)

Keynote lecture Research on and importance of cake structure
Hans Theliander, Chalmers University of Technology, Sweden

Session 1, Cake Filtration

Electrostatic control of the mobility of fines in ironoxide slurries, and its effect on filtration

Rasmus Eriksson^a, Seppo Heimala^b, Bjarne Ekberg^c, Mika Linden^{a,*}, Åbo Akademi, Outokumpu Research, Larox Oyj, Finland

Dewatering and Washing of Starches in Filter Presses
Nina Salmela, Lappeenranta University of Technology, Finland

Filtration assisted with ultrasound and electric field; review
Pentti Pirkonen, VTT Processes, Finland

11:00 Break and Annual General Meeting of NoFS

12:00 Lunch

Wednesday, August 10, 2005 - Afternoon

Session 1 (cont.)

Experiences in high-pressure dewatering in fine pigment slurries
Pertti Rantala, Helsinki University of Technology, Finland

New technique for measurement of washing efficiency.
Jenny Lindau, Chalmers University of Technology, Sweden

Session 2, Fabrics and membrane applications

New developments in filter fabrics
Kimmo Järvinen, Tamfelt Corp, Finland

Ultrasound assisted membrane filtration of wastewater.
Hanna Kyllönen, VTT Processes, Finland

Relationship between Permeate Flux and Shear Stress on the Membrane in a Cross-Flow Ultra-filtration Module with Micro-channels
Shiro Yoshikawa, Chiaki Kuroda and Kohei Ogawa,
Tokyo Institute of Technology, Japan

Temperature sensitive ultra- and micro filtration
Katri Mäkinen, Harri Setälä, Pekka Ruuskanen, Pentti Pirkonen, Jorma Ihalainen, Kati Salo, Heikki Tenhu, VTT Processes, Finland

Vacuum filter press with dry solids content 99% - a real process.
Tobias Johansson, Industritextil JOB AB, Sweden

17.00 Closing of the Symposium

Evening programme: possible if interest

-Rights for changes in the programme reserved-
