

Workshop feedback (22 feedback forms)

	Average	Standard Deviation
Programme and choice of topics	4,2	0,6
Quality of lectures	4,1	0,7
Arrangements	4,7	0,5
Evening programmes	4,6	0,5
Sessions:		
Keynote	4,3	0,8
Solvent Extraction	4,1	0,9
Ion Exchange and Adsorption	3,8	1,0
Electrochemical and Flotation Methods	3,8	0,9
Membrane Filtration	4,0	0,8
Solid-Liquid Separation	4,0	0,8

Nordic Filtration Symposium feedback (4 feedback forms)

Programme and choice of topics	3,5	0,6
Quality of lectures	3,8	0,5
Arrangements	4,8	0,5
Evening programmes	4,5	0,7
Sessions:		
Keynote	4,0	0,8
Session 1	3,5	0,6
Session 2	3,8	1,0

Workshop comments:

- Thank you so much. I had an excellent time - both educationally and socially
- More industrial case studies as per GEA, session 4
- The quality of lectures was very varied. I found that most of the lower quality lectures were due to very choppy language. In general the lectures were a good quality.
- Session 1: 2 last lectures were the best. Too bad that lectures on simulation & modelling did not compare their data with real measurements.
