Teaching Technology

EU General Data Protection Regulation
(2016/679), Articles 13 and 14
Date: 28.5.2018
Updated: 6.5.2022

1. Controller

LUT University

Business ID: 0245904-2
Address: Yliopistonkatu 34, 53850 Lappeenranta
Phone: 0294 462 111
Email: info@lut.fi

2. Controller's representative and contact

Controller's representative:
Director of Study Affairs Maija Kuiri,
Phone: +358405127425
Email: majja.kuiri@lut.fi

Controller's contact:
Educational Technology Manager Marjaana Kareinen,
Phone: +358407171805
Email: marjaana.kareinen@lut.fi

3. Data Protection Officer

Legal Counsel Anne Himanka
Phone: 050 564 4623
Email: tietosuoja@lut.fi

4. Purpose of personal data processing

- teaching arrangements
- service logins
- admission-related purposes
- support for learning and enabling assessing
- development of teaching

Collected log information are also used for

- solving technical problems
- investigating possible fraud or misconduct
- activity tracking
- learning analytics

5. Legal basis of data processing

The data controller processes personal data on the grounds of public interest and to comply with legal obligations.

When the data controller processes data on the grounds of compliance with a legal obligation, the data controller's activity is governed e.g. by the Universities Act (558/2009) and decrees issued based on it, the Government Decree on University Degrees (794/2004), the act on national student and degree registers (884/2017) and the Act on the Openness of Government Activities (621/1999).

6. Content of data and storage periods

Moodle ja LAB MOOC learning management systems

- personal data: first name, last name, email address, student identification number, username, faculty, department, phone number (staff) and other profile data provided by the user.
- content uploaded by the user
- log information collected from the activities by the user: date/time, first name, last name, description of the activity, IP address of the user
- Storage times for personal data during the studies and after graduation are defined in the Degree regulations of LUT. Study attainments are kept for 6 months, but maximum 36 months on courses via automation. Log information is kept for 12 months.

Zoom video meeting service

- data of registered user: first name, last name, email address, IP address during meeting and technical system data
- data of unregistered user: username given by the user, IP address during meeting and technical system data
- data added to service profile by the user
- statistical meeting data
- storage time: data of registered user can be deleted by request or after the right of use has ended

EXAM – electronic examination

- personal data: first name, last name, email address, student identification number, staff identification number, student ESI ID, student Peppi ID, username, organization
- examination data: exam reservation, exam attainment, grade, feedback, content of the exam made by the user
- storage time: data of registered user can be deleted by request (within the required storage regulations). Study attainments are kept for 6 months.

Howspace facilitation service

- personal data: first name, last name, email address and data added by the user
- content uploaded by the user
- log data (user activities)
- storage time: data of registered user can be deleted by request (within the storage regulations). Data and information are stored until the workspace is removed.

Turnitin plagiarism-detection

- personal data: first name, last name, email address
- content uploaded by the user
- storage time: data of registered user can be deleted by request (within the storage regulations).

Echo360 lecture capture service

- data of registered user: first name, last name, email address. User can add phone number and profile picture
- content uploaded to the service can be classified as personal data

- viewing statistics and student activities are stored. Can be used for analyzing student activity
- storage time: data of registered user can be deleted by request

7. Sources of information

Moodle ja LAB MOOC learning management systems

- Personal data is transferred from the university's identity management system, or via HAKA registration, or by user's self-registration, or manually added
- User can add personal information to the profile

EXAM – electronic examination

- Personal data is transferred from the university's identity management system, or via HAKA registration. The information entered by the user is stored in the exam.

Howspace facilitation service

- personal data is added by the workspace owner or creator, user can add and change the profile data
- user can upload content to the workspace

Turnitin plagiarism-detection

- personal data is transferred from Moodle and stored while the profile is created when the service is used for submitting paper
- user can submit content to the service

Zoom video meeting service

- Personal data is transferred from the university's identity management system, or manually
- user can add manually information to the profile
- log information is stored during meetings

Echo360 lecture capture service

- personal data is transferred from Moodle, or is created manually
- Log information is formed by viewing

8. Use of cookies

Browser-based filing information systems employ cookies to process personal data. A cookie is a small text file that the browser saves on the user's device. Cookies are used to implement services, facilitate login, and enable the compilation of statistics on services. Users may prevent the use of cookies in their browser programmes, but this may prevent the system from operating appropriately.

9. Data transfer and disclosure

Information may be transferred from the data filing system to LUT's internal services as needed for purposes such as creating user accounts and reporting.

In addition, data may be disclosed to other authorities. The university observes good data processing practices and thus does not use external data processors

10. Data transfer and disclosure beyond the EU or EEA

No data is transferred beyond the EU or EEA with the exception:

- Turnitin can transfer information outside EEA using Standard Constructional Clauses (EU directive 95/46/EY), that fulfill the demands of every EU member

11. Safeguards for data processing

The data is processed in a way that does not compromise the students' right to privacy. Personal data is processed only by those whose duties require access to the data. The data may be accessed only by those with a username for the system. Usernames are personal and their user rights have been defined based on the person's duties. Printed documents are stored and safeguarded from external access. Software used for the processing of personal data is protected in accordance with the university's information security practices

12. Automated decision-making

No automated decision-making takes place in the data processing.

13. Rights of the data subject

Data subjects have the right to withdraw their consent if the data processing is based on consent.

Data subjects have the right to lodge a complaint with the Data Protection Ombudsman if the subjects consider that the data processing regarding them is in breach of data processing legislation in force.

Data subjects have the following rights under the EU's General Data Protection Regulation:

- a) Right of access to data concerning the data subject (article 15)
- b) Right to rectification of data (article 16)
- c) Right to erasure of data (article 17)
- d) Right to restriction of processing (article 18)
- e) Right to data portability to another data controller (article 20)

The liaison in matters related to the data subject's rights is the data protection officer; contact details in section 3
