

Maria Mamelkina

Top International
Managers in Engineering

Maria Mamelkina is Development Manager at LUT University (Lappeenranta–Lahti University of Technology, Finland), where she oversees the design and implementation of joint international Double and Triple Degree programs—including MEITIM (Minerals Education & Innovation in Transition), ENTER, and SBBE.

She holds a PhD focused on electrocoagulation treatment of mining waters (LUT, 2020), and her research expertise spans sustainable water treatment, circular economy principles, and international engineering education
