

# **Membranes as Enablers for Future Biorefineries (Mem-Fast)**

## **Research proposal (template)**

### **Title of the research**

the name and contact information of the researcher

Please note: max. 2 pages, A4

### **Background**

- a short summary of the background to the research
- State-of-the-art

### **Aims**

- the research hypotheses
- the aims and objectives of the research

### **Materials and methods**

- a description of the research methods and materials used

### **Research results and their impact**

- Description of possible research results and their expected impact

### **References (outside the page limit, but max 1 page of references)**

- Literature references
